REPORT OF THE COLLEGE COMMITTEE.

STUDENTS AND FEES.

SESSION 1927–1928.

The number of Students, other than Evening and Vacation Students, who registered during the Session 1927–28 was 2509, being an increase of 37 as compared with the preceding Session. The number of Evening Students was 508, being an increase of 52 as compared with the previous Session. At the Librarianship Easter School, there were 60 Students, of whom 37 were not members of the School of Librarianship. Adding these figures together, the total is 3054, being a decrease of 164 on the previous year. This decrease is entirely due to the fact that the usual Vacation Course in Spoken English for Foreign Stndents was not held in 1927. The Students were distributed as follows:—

[The corresponding figures for the previous Session are shown in square brackets.]

	Men.		Women.		Total.

Grand total					3371	[3576]

In addition, 12,900 [8000] persons attended Public Lectures in the College, with an aggregate attendance of 23,038 [18,678].

* Easter Vacation Course, School of Librarianship, Rome, 1928. This number does not include the regular Students who took the Vacation Course; they are included under I. (*d*) above.

There were 1399 Students working for Degrees and 750 for Diplomas.

The geographical districts from which the Students came are given in Appendix I. (see p. 83).

The total fees available for the service of the Session 1927–28 amounted to £64,848 11*s.* 7*d.*, a decrease of £318 16*s.* 2*d.* on the previous Session.

THE CURRENT SESSION (1928–29).

The number of Students who have completed their registration and paid fees up to January 31st, 1929, is 2778, as compared with 2713 at the corresponding date in 1928.

The fee revenue (including fees of London County Council and Board of Education Students) to January 31st, 1929, amounts to £61,622, showing an increase of £2,558 as compared with the corresponding date in 1928.

GENERAL FINANCES.

Financial Year 1927–28.

The Accounts for the year ended 31st July, 1928, are appended to this Report (Appendix II., pp. 85–101).

College Establishment Income and Expenditure Account.

Income.—The ordinary income amounted to £194,876 0*s.* 2*d.* as compared with £189,275 4*s.* 2*d.* in 1926–27, an increase of £5,600 16s. 0*d.* The improved position, as compared with 1926–27, is mainly accounted for by an increased income from Endowments.

Expenditure.—The ordinary expenditure amounted to £188,146 1*s.* 2*d.* as compared with £183,925 17*s.* 2*d.* in 1926–27, an increase of £4,220 4*s.* 0*d.* The additional expenditure is due primarily to increases in the salaries of the professorial and non-professorial Members of the Teaching Staff, with consequential increased provision for superannuation benefits.

The excess of ordinary income over ordinary expenditure for the Session 1927–28 was, therefore, £6,729 19*s.* 0*d.* After providing for the balance [£3,254 3*s.* 0*d.*] of the debt on the Maintenance Account, which at the end of 1924–25 was over £16,000, there was a balance of £3,475 16*s.* 0*d.*, which has been carried forward to 1928–29.

The Balance Sheets.

General and Trust Funds :—

The following sums have been added to General and Trust Funds Capital Accounts during the year (excluding the investment of dividends transferred from the Trust Funds Income and Expenditure Account):—

(i.) Per Centenary Appeal Committee :—

Northcliffe Endowment Fund, for the endowment of the Lord Northcliffe Chair of Modern English Literature and the Lord Northcliffe Lectureship in Literature	£30,353
Kennedy Endowment Fund, for the endowment of the Kennedy Chair of Civil and Mechanical Engineering	£15,000
Cowdray Fund, for apparatus in the Department of Engineering.....	£4,000

(ii.) Per Winifred Smith Memorial Committee :—

The freehold cottage known as "The Old Forge" with furniture and fittings	£625

(iii.) Per Seton Memorial Committee :—

To provide Public Lectures as a memorial to the late Dr. Walter Seton	£228

THE CENTENARY FUND.

The Executive Committee for the Centenary Fund, of which H.R.H. Prince Arthur of Connaught is Patron and the Rt. Hon. Lord Meston Chairman, have raised, to 31st January, 1929, £210,151 of which nearly £37,000 has been added to the Fund during the twelve months under review. It may be well to repeat here the objects of the Fund, in order that progress may be recorded :—

The Great Hall, £30,000; Endowment of Teaching, £225,000 Completion of the Gower Street Front, £25,000; Chemical Laboratories: Electrical Installation, £15,000; Zoology and Comparative Anatomy: Site and Buildings, £50,000; Applied Mathematics and Physics: Reconstruction and Equipment, £8,000; Engineering: Completion of Laboratories and Equipment, £18,000; Accommodation for Faculties of Arts and Laws, £25,000; Chemical Engineering Laboratory: Equipment and Endowment, £60,000; Libraries: Endowment and Reconstruction, £30,000; Scandinavian Studies: Endowment, £10,000.

The Committee had pleasure in reporting last year that the section of the Fund for the Endowment of the Department of Scandinavian Studies had been completed.

Towards the £30,000 required for the Great Hall, all but £4,064 has been subscribed. Of the £900 raised in the past year, about

£600 has been given by past and present Students. The Hall has been provided with a lectern, table, casket, and Chairman's Chair, designed by the Architect, Professor A. E. Richardson; these were dedicated by H.R.H. Prince Arthur of Connaught on the occasion of the last annual Assembly of Faculties. The Album, 'Builders of the Great Hall,' which was designed and executed by Miss Margaret Alexander, of the Slade School, the binding being executed by Messrs. Roger de Coverley, was placed within the casket; the names of those who contributed to the Fund for the Great Hall are inscribed on its pages.

In connection with the Endowment of Teaching, an important gift has been received from Viscount Rothermere and Mr. Cecil Harmsworth, whose decision to associate a memorial to their brother, the late Lord Northcliffe, with the College was in the first instance due to the good offices of Professor J. H. Morgan. They have provided £30,000 for the endowment of a Lord Northcliffe Chair of Modern English Literature and a Lord Northcliffe Lectureship in Literature. Dr. C. J. Sisson, formerly Reader in the Department of English, has been appointed the first Lord Northcliffe Professor, and is now joint head of the Department with the Quain Professor, Dr. R. W. Chambers. Under the terms of the Trust, a Standing Committee has been set up to advise on the appointments to the Lectureship, which will normally be made annually. Dr. W. Macneile Dixon, Regius Professor of English Language and Literature in the University of Glasgow, has been appointed the first Lord Northcliffe Lecturer.

The section of the Fund relating to the Endowment of Teaching affects directly or indirectly every department of the College. If the College finances are to be placed on a satisfactory basis and due scope is to be given for the many opportunities for development that exist, it is of the utmost importance that this section should be completed.

The provision of new buildings and equipment for the Department of Zoology and Comparative Anatomy is one of the urgent matters towards which the Centenary Fund Committee are directing their efforts. The sum of £50,000 included in the Centenary Appeal would only have provided a new site and new buildings. For the endowment of the department as a whole, including a new Chair of Genetics, a sum of £240,000 is required. Towards this, £120,000 has been offered, contingent on a like sum being raised, either in capital or in permanent income (£6,000 a year), within a reasonable period.

The Chemical Engineering Building and Endowment Fund Committee have continued their work under the Chairmanship of Lord Melchett and the Vice-Chairmanship of Sir Robert Waley Cohen. They have already raised £24,283 for building and equipment, and have received promises of contributions towards maintenance amounting to £3,491 for the first three years, £3,391 for the fourth and fifth years, and £2,700 for the sixth to tenth years. Of the total sum required, £50,000 is needed for buildings and equipment: the Committee have resolved to put building operations in hand when the sum of £30,000 has been reached. It is hoped that the balance still needed to complete this amount, £5,717, will soon be raised.

The following is a summary of the position of the Fund on 31st January, 1929:—

	Required.	Raised.	Still Needed.
1. Buildings: Great Hall.....	£30,000	£25,943	£4,057
Other Buildings ..	100,000	2,802	97,198
2. Equipment.....	41,000	20,465	20,535

THE ATHLETIC GROUNDS.

The College Unions are hampered by debts on their Athletic Grounds; the payment of interest on these debts is a heavy item in their annual expenditure and hinders development. The debt on the Men's Ground is due to the making of the by-pass road, which cut off a large area. The compensation received did not meet the consequential cost of buying and re-laying additional ground. The debt on the Women's Ground is due to its enlargement, rendered necessary not only by the larger number of women students, but by their increased athletic activities.

The provision of adequate athletic facilities is always necessary, but especially so for students who reside and work in London. The students have done their share in helping to raise funds for these purposes: their efforts were very properly suspended and diverted to the Centenary Fund from 1925–27, for which they raised nearly £3,000.

At the beginning of the current session (1928–99) there was a debt of nearly £6,000 on the two grounds, almost equally divided between the men's and women's. A carefully concerted effort made in the first term, to be continued in the second and third terms, has already reduced the debt to £4,450.

The College Committee invite all Members of the College to co-operate in the effort to extinguish these debts.

RECONSTITUTION OF THE UNIVERSITY.

The new Statutes for the University of London, which embody many suggestions made on behalf of the College, have been sealed by the Commissioners, but the date of the Appointed Day on which they will take effect has not yet been fixed.

The College Statutes were modified by the Commissioners wherever it was necessary, to make them consistent with the new Statutes of the University.

THE COLLEGE COMMITTEE.

Mr. W. H. Webbe, C.B.E., has been appointed to succeed Sir Harry Stephen as one of the nominees of the London County Council on the College Committee. Sir Harry Stephen had served on the Committee since 1922 and had given valuable counsel during that period.

Mr. Percival Boyd, who was nominated by the Drapers' Company to a seat on the Committee in February 1925, resigned that seat at the end of last session. In expressing their regret at his resignation, the Committee tendered to Mr. Boyd their warm thanks for the care and attention he had given to the affairs of the College. Mr. Arthur Brian Ashby, M.A., has been appointed to succeed him.

Professor Donnan and Professor Sisson have succeeded Professor Jeffery and Professor Chambers as two of the representatives of the Professorial Board.

At the suggestion of the Chairman of the College Committee, the Viscount Chelmsford, Joint House Dinners of the College Committee and the Professorial Board have been instituted. Three have already been held, and have proved a valuable means of bringing together the members of these two bodies.

THE PROFESSORIAL BOARD.

Mr. H. Terrey, Senior Lecturer in the Department of Chemistry, has been elected a member of the Board for the current session *vice* Mr. H. J. Evans, under Statute 24 (5) and Regulation 29.

REPRESENTATIVES.

The following have been appointed, or re-appointed, representatives of the College on the various bodies, or at the Congresses, named:—

By the Senate:—

Professor H. E. Butler.	Training College Delegacy.
Mr. M. E. Delafield.	International Convention on Cancer, London, July 1928.
Brevet-Colonel H. J. Harris.	Central Council of Federated Superannuation System.
Mr. J. W. Jeaffreson.	Governing Body of Stepney and Bow Foundation.
Professor Daniel Jones.	First International Congress of Linguists, The Hague, April 1928.
Miss M. A. Murray.	International Congress on Art Education, Prague, July 1928.

By the College Committee:—

The Provost (Sir Gregory Foster).	Committee of Management of Ealing Hall Association, Ltd.
Dr. F. W. Goodbody.	
Professor G. B. Jeffery.	
The Senior Tutor (Brevet-Col. H. J. Harris).	London Intercollegiate Scholarships Board.
The Dean of the Faculty of Medical Sciences (Professor C. Lovatt Evans) [in respect of that Faculty].	
The Secretary (Mr. C. O. G. Douie).	
The Secretary (Mr. C. O. G. Douie).	The Council of College Hall.
Mr. A. Digby Besant.	Bawden Fund Trust.
Professor J. E. Neale.	Sixth International Congress of Historical Sciences, Oslo, August 1928.

DEATHS.

LADY FOSTER.

The Committee record with great sorrow the death, on 8th December, 1928, of Lady Foster, after a long illness gallantly borne. The heavy loss that has thus fallen on the entire College community is expressed in the following Resolutions:—

[i.] *The Professorial Board, 11th December,* 1928.

"The Professorial Board and the Academic Staff of University College desire to express their deepest sympathy to the Provost, Sir Gregory Foster, on the death of Lady Foster. They wish to set on record the debt which the College owes to her for her constant interest in its prosperity, her ready co-operation in its social activities, and, above all, the unfailing and sympathetic help that she has given without stint in all that concerned the welfare and the happiness of its students. Her kindly presence, which has graced so many a ceremonial or social gathering, will long be missed by all who have known her."

[ii.] *The College Committee, 8th January,* 1929.

"That the University College Committee place on record their sense of the great and irreparable loss which the College has sustained by the death of Lady Foster. They recall her eager interest in all which might advance the welfare of the College, its staff and its students, her gaiety and grace, her constant kindness and consideration for others. The College has lost her presence, but it will not forget, nor cease to hold in honour, the high example of a fearless and generous spirit. The College Committee ask the Provost to accept their most sincere sympathy in his bereavement."

A Memorial Service was held in St. Pancras Church on 12th December and was attended by the College as a body. Many were also present to represent it at the graveside in the Hampstead Cemetery.

PROFESSOR M. J. M. HILL.

By the death, on 11th January, 1929, of Professor Micaiah John Muller Hill, the College has lost one who ever gave it warm affection and who devoted the best years of his life to its service. He entered as a Student in 1872 and, after a distinguished Course, was elected Fellow in 1876. He became Professor of Pure Mathematics in 1884, receiving the title of Astor Professor in 1907. He remained Head of the Department until 1924. He desired to retire in 1923, but postponed his departure for one year until his successor, Professor Jeffery, was ready to take office. The Senate then conferred on him the title of Emeritus Professor.

He had the power of inspiring great affection in the hearts of his students. As a token of this, his name will be permanently associated with a Loan Fund, primarily for the benefit of students who have shown proficiency in Mathematics, which formed part of the testimonial offered to him by his old students at the time of his retirement.

In the wider sphere of University affairs his services were equally devoted. He was a member of the Senate for twenty-six years [1900–26], was Chairman of the Academic Council, and, for the years 1909–11, Vice-Chancellor of the University.

At the Funeral, on 14th January, the College was represented by the Vice-Chairman of the College Committee (Sir John Bradford), the Dean of the Faculty of Arts (Professor R. W. Chambers), the Dean of the Faculty of Science (Professor G. B. Jeffery), the Dean of the Faculty of Engineering (Professor E. G. Coker), Professor Karl Pearson, and the Presidents of the Union Society and the Women's Union Society (Mr. H. T. Venables and Miss J. K. Reekie).

The Committee also record with regret the death of the following persons connected with the College:—

Dr. Hugh H. L. Bellot (Deputy to Professor Morgan; later, Acting Professor of Constitutional Law; 1920–23). [10th August, 1928.]

Sir John Brunner, Bt. (Vice-Chairman of the Ramsay Memorial Fellowship Trust). [16th January, 1929.]

Mr. Cecil Kynaston Climer (First Year Engineering Student). [Killed in motor-cycle accident, 29th April, 1928.]

Mr. John de Matern (Member of the Committee for the Promotion of Scandinavian Studies).

Charles Duck (Beadle: in the service of the College from 1880). [28th January, 1928.]

Sir Edmund Gosse (Chairman of the Committee for the Promotion of Scandinavian Studies). [16th May, 1928.]

The College was represented at the Funeral Service by the following:—The Director of Scandinavian Studies (Professor J. G. Robertson), the Quain Professor of English Language and Literature (Dr. R. W. Chambers), the W. P. Ker Lecturer in Norwegian (Mr. I. C. Gröndahl), the Queen Alexandra Lecturer in Danish (Mr. J. H. Helweg), the then Deputy-Lecturer in Swedish (Miss Ingeborg Tegnér), Mr. Frank Herbert, Mr. F. R. C. Jörgensen, and Miss Anna Paues, representing the Scandinavian Studies Committee.

The Rt. Hon. the Viscount Haldane of Cloan (former Vice-President of the College Council, 1897–99; former Life-Governor; Chairman of the Royal Commission on University Education in London appointed in 1909). [19th August, 1928.]

Mr. W. R. Jaggard (Lecturer in Building Construction, Bartlett School of Architecture). [21st January, 1929.]

The College was represented at the Funeral by the Reader in Architecture (Mr. Arthur Stratton), the Senior Lecturer (Mr. H. O. Corfiato), and two students representing the Architectural Society.

Sir Alexander Kennedy (Professor of Mechanical Engineering, 1874–89. [During his tenure of the Chair, the first Engineering Laboratory was established]; Emeritus Professor; former Life-Governor.) [1st November, 1928.]

The College was represented at the Funeral by the following:—The Provost (Sir Gregory Foster), the Dean of the Faculty of Engineering and Professor of Civil and Mechanical Engineering (Dr. E. G. Coker), the Professor of Electrical Engineering (Mr. W. C. Clinton), Professor Karl Pearson, Dr. Monteagle Barlow, Mr. D. Cameron, and representatives of the Engineering Society, of which he was the founder.

Mr. F. J. Lee Nichols (former Student in the Faculty of Arts). [Died on voyage out to take up professorship of English Literature at Keio University, Tokio, 10th August, 1928.]

The Rt. Hon. the Earl of Oxford and Asquith (former Life-Governor). [15th February, 1928.]

Mr. Frank Pacy (Member of the School of Librarianship Committee). [24th June, 1928.]

Dr. G. E. Rennie (Fellow). [Died 1923; news received in 1928.]

Miss Elizaverta Schaposchnikoff (Student of the Faculty of Science). [18th January, 1928.]

Professor F. M. Simpson (Chair of Architecture, 1903–19; Emeritus Professor; Architect of many extensions to the College Buildings). [13th June, 1928.]

The College was represented at the Funeral by the Provost (Sir Gregory Foster) and the Professor of Architecture (Mr. A. E. Richardson).

Mrs. E. H. Starling (Widow of the late Professor Ernest Henry Starling, reference to whose death was made in the last Report). [25th January, 1928.]

Sir Dawson Williams (Fellow). [27th February, 1928.]

The College was represented at the Memorial Service at St. Pancras Church on 5th March by the following:—The Vice-Chairman of the College Committee (Professor Sir John Rose Bradford), the Professor of Anatomy (Dr. Elliot Smith), and the Secretary (Mr. C. O. G. Douie).

THE WALTER SETON MEMORIAL.

The Walter Seton Memorial Committee, of which the Rt. Hon. Lord Loch is Chairman and the Provost (Sir Gregory Foster) and Professor R. W. Chambers Vice-Chairmen, have issued a report showing that a sum of over £516 had been raised to date. A further sum of £32 14*s.* 6*d.* has since been subscribed, making a total of £548 14*s.* 6*d.* Effect has been given to the three sections of the Memorial scheme as follows:—(*a*) A Hopton Wood Stone tablet, designed and executed by Mr. A. H. Gerrard, of the Slade School, has been placed on the south wall of the lobby to the General Library. (*b*) A room in University College Hall, Ealing, has been redecorated and specially furnished as a Seton Room for quiet reading and study. A brass tablet, mounted on mahogany, will be provided. (*c*) The sum of £228 2*s.* (producing an annual income of £10) has been handed over to the University to establish a Seton Memorial Lecture Fund. Under the terms of the Trust the Lecture will be given by "persons distinguished in the field of Franciscan Studies" on some subject connected with the life of St. Francis of Assisi at intervals of not more than two years. A Standing Sub-Committee has been set up to advise on the appointment of the Lecturer.

Mr. Harold E. Goad, Director of the British Institute of Florence, delivered the First Walter Seton Memorial Lecture on Tuesday, 15th January, 1929, on "The Fame of St. Francis." He referred to the great work done by Dr. Walter Seton in the field of Franciscan Studies. On the same occasion the Chairman of the College Committee (the Viscount Chelmsford), acting on behalf of the College, accepted from Lord Loch the Memorial Tablet and a copy of the Memorial Lecture Trust Deed, and Professor R. W. Chambers spoke on behalf of the Professorial Board.

ARMISTICE DAY.

As Armistice Day fell an Sunday, the usual celebration in the College could not be held, but an abbreviated form of service was observed, jointly with the Hospital and Medical School, on Saturday, 10th November. A Wreath of Remembrance was placed around the names in the South Cloisters of those members of the College and Medical School who gave their lives in the Great War, and the Commemoration Sentences were said by the Provost.

ELECTION OF SIR GREGORY FOSTER TO THE OFFICE OF VICE-CHANCELLOR.

On the election of the Provost, Sir Gregory Foster, to the office of Vice-Chancellor of the University of London, which took place on 20th June, 1928, the Professorial Board resolved :—

> "That the University College Professorial Board place on record their satisfaction at the high honour which has been conferred on the Provost by his election to the office of Vice-Chancellor of the University of London, and take this opportunity of expressing to him their sense of the great services which he has rendered to the College and to the University."

The College Committee associated themselves with that resolution and expressed their sincere congratulations to the Provost. They take this further opportunity of recording their gratification at the distinction thus conferred on Sir Gregory Foster, who has already done such signal service for the cause of University Education in London.

W. W. Rouse Ball Loan Fund	170	0	0
	£1130	3	9

At the time when these Grants were made, the amount available was not sufficient to meet all the applications that were received.

The list of new donations to the Fund is given in Appendix III.

Bursaries are gifts towards maintenance; Exhibition Bursaries are gifts towards fees. These awards are generally made to Entrance Scholars whose circumstances are such as to make supplements to the value of the Scholarships essential.

Loans are made on the following terms :—

(*a*) Loans during a Student's career in the College shall not carry interest.

(*b*) After the end of a Student's career in the College the loans shall carry interest at the rate of 1% above Bank Rate, with a maximum of 5%, except in respect of the W. W. Rouse Ball Loan Fund, which is free of interest.

(*c*) Loans should be repaid within three years from the completion of a Student's College career, unless, on the special application of the Student concerned, an extension of time is granted.

(*d*) Students to whom loans are granted will sign a document accepting these conditions, and in the cases of Students under age their parents or guardians shall countersign the same undertaking.

It has been possible, up to the issue of this Report, to make the following Grants for the Session 1928–29 :—

	£	s.	d.
Loans	407	0	0
Bursaries	356	10	0
Exhibition Bursaries	339	12	0
	£1103	2	0

Loans were repaid during the Session 1927–28 as follows :—

To the College Loan Fund £205 16 0

The fund is administered by a Committee consisting of the Provost, the Deans, the Tutor to Women Students, and the Sub-Deans.

This Committee deals with each case on its merits and after careful investigation.

The fund is of great value, and enables many Students to obtain the training they desire and deserve. At the same time it is not at present large enough to enable the Committee to meet the needs of all deserving cases.

Members of the College are specially invited to support it.

THE COLLEGE SITE AND BUILDINGS.

Accommodation for the Faculties of Arts and Laws.—It was recorded in the last Report that, with a view to providing more accommodation for the Faculties of Arts (including the School of Librarianship) and Laws, leases of the North Wing and the Annexe of Dr. Williams's Library (formerly University Hall) were acquired. The North Wing has been named "Crabb Robinson Hall" in commemoration of the fact that the foundation of University Hall was mainly due to Crabb Robinson. The Annexe, which was erected during Henry Morley's tenure of the Principalship of University Hall, is to be known as "The Henry Morley Annexe." The College obtained possession of Crabb Robinson Hall last June, and the necessary work of redecoration and equipment was completed in time for occupation at the opening of the session. Certain private rooms have been allocated to Members of the two Faculties and extra classroom accommodation has been provided. The Law Library has been transferred there and housed in two rooms. The work of the extension and remodelling of the Henry Morley Annexe is progressing ; it will be ready for use at the beginning of the third term of the current session. The capital cost of the work in the Henry Morley Annexe is estimated at £3,650, exclusive of equipment.

General and Science Libraries.—The provision of a fireproof floor in, and the redecoration of, the General Library, together with the outstanding work in the Science Library, has now been completed with the help of the special grant of £10,000 made by the University Grants Committee. On the death of Professor F. M. Simpson, who had prepared the plans, his son, Mr. J. Moore Simpson, was appointed to supervise the work. The constructional work was completed by the end of September, and the Science Library was available for the opening of the session. The redecoration of the General Library has been carried out during the first term, and the Library is now in use. The names of the following benefactors of the College Library have been inscribed over the fourteen bays :—Barlow, Blackburn, Grant, Graves, Holme, Leighton, Morris, Peene, Quain, Ricardo, Rotton, Sharpey, Stokes, Strong.

Engineering.—Work in the basement of the Engineering Wing for the extension of laboratory accommodation was carried out during the Long Vacation. The cost will be met from the amount received for engineering equipment and the completion of the laboratory in the Centenary Fund. Better accommodation for the Department of Municipal Engineering, which has been hampered for lack of laboratory space, has been made available, and a Committee has been appointed to consider the provision of the necessary equipment.

Physics.—At the request of the new Professor of Physics, Dr. E. N. da C. Andrade, the ground-floor room in the Carey Foster Building has been partitioned and a storeroom has been constructed.

Geography.—The ground-floor lecture room in Arts Annexe 2 has been adapted as a map-room for the Department of Geography, and has been provided with special tables and other equipment.

Portico.—It became evident that the stone-work of the portico was in urgent need of repair. The work was skilfully carried out by Messrs. Dove during the Long Vacation under the direction of Professor Richardson.

Refectory.—The remodelling and extension of the Refectory kitchens (including the installation of a lift) and the provision of a larger bakehouse was also effected during the Long Vacation, resulting in greatly improved conditions for the Refectory Staff. The Committee recorded their appreciation of the manner in which the work was carried out by the Superintendent of Buildings.

Heating.—The Slade School has been re-heated, the hot-water system being supplemented by electrical heating for the models. The South Boiler has been replaced by a new one in the Medical Sciences Block, and a new system from that boiler has been installed. Both these new sections of heating are on the "Rayrad" principle. The scheme of heating adopted twenty years ago, under which a boiler-house to the North and one to the South provides all the heating for the College, has thus been completed.

BENEFACTIONS AND DONATIONS.

(Other than Centenary Fund, see p. 21.)

The College Committee make grateful acknowledgment of the following gifts:—

The list on p. 103 includes the grant from the Drapers' Company for the Biometric Laboratory (£500); the sum subscribed annually through His Excellency the Italian Ambassador for the Department of Italian (£300); the grant from the Rhodes Trustees towards the Chair of Constitutional Law (£200); the grant from the Carnegie United Kingdom Trust in aid of the School of Librarianship (£400); and donations towards the Students' Loan and Bursary Funds, including £120 from Mrs. M. W. Wharrie.

The Chadwick Trustees have renewed for the session 1928–29 their grant of £100 in aid of the work in Municipal Engineering, the Chair of which bears the name of Sir Edwin Chadwick.

During the period under review, Imperial Chemical Industries Limited have, through Professor Donnan, made grants amounting to £2,250 in aid of research work in the Physical and Inorganic Laboratory of the Department of Chemistry.

The Department of Scientific and Industrial Research have made grants to assist the research work of the Departments of Civil and Mechanical Engineering and Chemistry.

The Incorporated Institute of British Decorators have co-operated with the University in instituting a Division of Decoration in connection with the Bartlett School of Architecture, to which further reference is made on p. 68. They have also made a gift of £10 for the purchase of slides for the new Division.

Reference is made elsewhere (p. 28) to the gifts of the Walter Seton Memorial Committee.

Lady Walston has given a prize of £5 for Design by a member of the Architecture Atelier, to be awarded in 1928 and 1929. It was awarded to Mr. A. E. Barnard in 1928.

Miss Lorna Weber, former student and Honorary Assistant in the Department of Egyptology, has lent a Broadwood grand piano for use in the Great Hall.

The London County Council have lent for the Department of Anatomy and Embryology spare enthnological specimens from the Horniman Museum at Forest Hill.

The Royal College of Physicians have presented for the Department of Physiology and Biochemistry the Harvey Film which created such interest when it was shown at the College in connection with the celebration of the Tercentenary of the publication of William Harvey's *De Motu Cordis* (p. 77).

The Chairman of the College Committee, the Viscount Chelmsford, has presented the original water-colour drawing of the front elevation of the College made by the Architect, William Wilkins.

Under the will of Leopold Peregrine Edward Cust, deceased, £50 has been received "to be placed at the disposal of the Professor of Engineering of the College." Emeritus Professor J. A. Fleming has given a ten-inch Induction Coil Kelvin Astatic Galvanometer for the Department of Electrical Engineering.

Messrs. Guinness have given £50 for the Department of Applied Statistics and Eugenics, in consideration of the benefit derived by a member of their staff who had been a student of that department. Under the will of Mrs. T. J. A. Studdy, niece of the late Sir Francis Galton and great-great-grandchild of Erasmus Darwin, an armchair and two miniatures of Erasmus Darwin and his wife were bequeathed to Professor Karl Pearson, who has placed them in the Galton Laboratory as part of the Galton Bequest. Miss Bent, a niece of Mrs. Studdy, has given two prints for the Galton Laboratory.

The following further gifts have been received :—

From Mr. T. F. Althaus, an engraving of the Brothers Grimm; from the Brass and Copper Tube Association, a panel showing specimens of light gauge copper tubing, together with drawings showing specimens of work, for the Bartlett School of Architecture; from Dr. Florence Buchanan (Fellow), zoological and physiological apparatus; from Miss A. Freund, on behalf of her brother, Mr. Eric W. T. Freund, killed in the War, a set of chemical apparatus for the Chemical Loan Collection; from Miss A. B. Marshall, a series of anatomical drawings by the late Professor J. Marshall, for the Department of Anatomy; from Mr. R. D. Oldham, geological papers, maps, and photographs, for the Department of Geology.

Donations to the Library are recorded on pp. 116–121.

THE ACADEMIC STAFF.

Appointments and Changes.

Since the issue of the last Report the following changes of title have been adopted, many of which are consequent on the revision of the titles and grades of the Academic Staff, to which reference was made last year :—

The following new appointments and changes have been made:—

Faculty of Arts.

The retirement of Professor Ernest Gardner, to take effect at the end of the Session 1927-28, from the Yates Chair of Archæology was foreshadowed in the last Report. Mr. Bernard Ashmole, Director of the British School at Rome, has been appointed to the Chair, and will take up his duties at the beginning of the Session 1929-30. Professor Ernest Gardner was, therefore, invited to continue his

tenure of the Chair during the current Session. When the news of his impending retirement was communicated to the Professorial Board, the following resolution was passed :—

> "That the Professorial Board desire to express their deep regret that Professor Ernest Gardner's tenure of the Yates Chair of Archæology, to which he was appointed in 1896, will terminate at the end of the current Session. Owing to the depth of his learning, the soundness of his teaching, and to his zeal and effective service on Senate and Academic Council and on Boards of Studies, the position of Archæology in the University has been placed on the present satisfactory basis, and the Board recall with high appreciation the signal services he rendered during his tenure of the office of Vice-Chancellor."

The resignation of Professor G. Dawes Hicks from the Chair of Philosophy took effect at the end of last Session. The following is the resolution of the Professorial Board :—

> "That the Professorial Board desire to express their deep regret that Professor Dawes Hicks' tenure of the Chair of Philosophy, to which he was appointed in 1904, will terminate at the end of the current Session. They desire to express their appreciation of the generous services rendered to the College and to the subject by Professor Dawes Hicks, who, regardless of the conditions that have unfortunately made his Chair a part-time one, has given his time without stint to the teaching and guidance of his students. They recall with high appreciation the remarkable growth in the post-graduate work in Philosophy during Professor Dawes Hicks' term of office."

Mr. John Macmurray, M.C., M.A., of Balliol College, Oxford, was appointed Grote Professor of the Philosophy of the Mind and Logic as from the beginning of the current Session.

Professor L. W. Lyde retired from the Chair of Economic Geography at the end of last Session. The Professorial Board resolved :—

> "That the Professorial Board desire to express their deep regret that Professor Lyde's tenure of the Chair of Economic Geography, to which he was elected in 1903, will terminate at the end of the current Session. Except during the two Sessions 1835-37, there had been no teaching of Geography in the College until Professor Lyde's appointment. During his tenure of office, Professor Lyde, in co-operation with Professor Garwood and Professor Ormsby, has built up a department of Geography that now equals in size many of the larger departments ; by his inspiring teaching, by the careful training of his students, and by the development of the Evening School of Geography, he has helped materially in improving the methods of teaching his subject in this University and throughout the country. The Professorial Board wish to place on record their appreciation of the important pioneer work achieved by Professor Lyde."

Dr. Charles Bungay Fawcett, of the University of Leeds, has succeeded Professor Lyde, taking up his duties at the opening of the Session.

Dr. T. G. Pinches, Lecturer in Assyriology, retired at the end of the Session on account of ill-health. This severance of a long connection with the Academic Staff of the College, dating from 1904, caused much regret.

Dr. C. J. Sisson, formerly Reader in the Department of English, has been appointed Lord Northcliffe Professor of Modern English Literature under the benefaction recorded on p. 22.

Professor W. Macneile Dixon, Regius Professor of English Language and Literature in the University of Glasgow, has been appointed the first Lord Northcliffe Lecturer in Literature.

The Senate have conferred the title of Reader in English and Germanic Philology on Mr. J. H. G. Grattan, formerly Senior Lecturer, in respect of his appointment in the Department of English.

Professor C. E. Spearman, who has formerly borne the title of Grote Professor of the Philosophy of Mind and Logic, has been reappointed with the new style of University Professor of Psychology.

Mr. H. Warren Wilson, formerly Senior Assistant in the Bartlett School of Architecture, has been appointed Lecturer in Decoration in the new Division of Decoration established in co-operation with the Incorporated Institute of British Decorators.

Mr. Axel M. Wijk, of the University of Uppsala, has been appointed the new Crown Princess Louise Lecturer in Swedish.

Mr. J. R. Firth, formerly Senior Assistant in the Department of Phonetics, has returned this Session, and has been appointed Senior Lecturer.

Mr. H. A. Matthews, Lecturer in the Deparment of Geography, resigned his appointment at the end of the Session to take up the post of Lecturer in Geography at Birkbeck College. Mr. C. Daryll Forde gave up his appointment as Assistant Lecturer in the Department of Geography to take up a Commonwealth Fund Fellowship.

The following further new appointments have been made :—

	Department.	*Status.*
Alexander, Miss M.	Slade School.	Assistant.
Barker, Miss Muriel.	Applied Mathematics and Mechanics.	Assistant.
Bonar, Dr. James.	Political Economy.	Newmarch Lecturer in Statistics.
Bosson, Mr. G.	Mathematics.	Assistant.
Brogan, Mr. D. W. (in succession to Mr. R. Pares, resigned).	History.	Lecturer.
Buchanan, Mr. R. O.	Geography.	Assistant.
Dickinson, Mr. R. E.	Geography.	Assistant.
Gaitskell, Mr. H. T. N.	Political Economy.	Assistant.
Jones, Miss Ethel.	Mathematics.	Assistant.
Ormrod, Mr. F.	Slade School.	Assistant.
Parker, Mr. B. N.	French.	Assistant.

Faculty of Laws.

Judge W. H. Hill accepted the invitation to continue the teaching of Muhammadan Public Law and Turkish Land Law during the Session 1928–29, but subsequently asked to be relieved of the work for a time, in view of his appointment as British Member of the Anglo-Turkish Arbitral Tribunal, now sitting at Constantinople. Mr. S. G. Vesey FitzGerald has kindly undertaken to act as his deputy.

Mr. E. R. Guest has been appointed Senior, and Mr. A. S. Gilbert Junior, Assistant for Tutorial Work.

Faculty of Science.

The retirement of Professor J. Norman Collie from the Chair of Organic Chemistry took effect at the end of 1927–28. The Professorial Board resolved:—

> "That the Professorial Board desire to express their deep regret that Professor Collie's tenure of the Chair of Organic Chemistry, to which he was appointed at the time of its institution in 1902, will terminate at the end of the current Session. In doing so they wish to place on record their sense of the distinguished services that Professor Collie has rendered to the College in general and to the science of Chemistry in particular; they recall with gratitude the valuable share he took in planning the new Chemistry Laboratories, and desire to express their high appreciation of the successful development of the Department of Chemistry under his direction and leadership."

The College Committee have been glad to confer on him the title of Honorary Lecturer in Chemistry and to grant him the use of a research laboratory.

Professor Robert Robinson, of the University of Manchester, was appointed to succeed Professor Collie in the Chair of Organic Chemistry, and began his work at the College last October.

Dr. William Edward Gibbs, of the University of Liverpool, took up the duties of the Ramsay Chair of Chemical Engineering in April 1928, in succession to Professor E. C. Williams, whose resignation was reported last year.

Professor Alfred W. Porter retired from the Chair of Physics at the end of last Session. The following is the resolution of the Professorial Board:—

> "That the Professorial Board desire to express their deep regret that Professor Porter's tenure of the Chair of Physics, to which he was appointed in 1923, will terminate at the end of the current Session. They recall with gratitude and appreciation the long service that Professor Porter has rendered to the College since he first took office as a Demonstrator under the late Professor Carey Foster in 1892, and the distinction his researches have added to one of the oldest and most famous departments of the College."

Dr. E. N. da C. Andrade, Fellow of the College, was appointed Quain Professor of Physics as from the beginning of the current Session.

Dr. Violet Anderson resigned the Quain Studentship in Biology during the Long Vacation, having been appointed Assistant Lecturer at University College, Cardiff.

The following new appointments have been made :—

	Department.	*Status.*
Amirthalingam, Dr. C.	Zoology and Comparative Anatomy.	Hon. Research Assistant.
Brocklehurst, Dr. R. J.	Physiology and Biochemistry.	Lecturer.
Dawson, Mr. E. R.	Physiology and Biochemistry.	Assistant.
Dowling, Miss Ruby.	Botany.	Assistant.
Eggleton, Mrs. Grace Palmer.	Physiology and Biochemistry.	Assistant.
Freeth, Dr. F. A.	Chemistry.	Hon. Lecturer (Theory and Practice of Heterogeneous Equilibria).
Mullen, Mr. J. P.	Chemical Engineering.	Lecturer.
Renton, Miss R. M.	Zoology and Comparative Anatomy.	Hon. Assistant.
Tansley, Miss K.	Physiology and Biochemistry.	Hon. Research Assistant.
Townend, Miss J.	Applied Statistics and Eugenics.	Draughtsman.
Walker, Dr. O. J.	Chemistry.	Lecturer.
Worthington, Miss E. J.	Applied Statistics and Eugenics.	Hon. Research Assistant.

Dr. Helga Pearson, Senior Assistant in the Department of Zoology, and Dr. Percy Stocks, Reader in Medical Statistics, have been appointed members of the Faculty.

Faculty of Engineering.

Mr. C. W. Bayliss, Lecturer in Electrical Machine Design, has been appointed a member of the Faculty.

Faculty of Medical Sciences.

Mr. C. W. Flemming and Mr. G. H. Steele have been appointed Honorary Demonstrators, and Dr. John Kirk, Miss A. E. Russell, and Mr. S. Zuckerman Demonstrators, in Anatomy ; Miss Dorothy Chalmers an Honorary Research Assistant in Embryology.

Mr. J. D. Procter has been appointed an Assistant in the Department of Pharmacology.

Dr. R. J. Brocklehurst, Lecturer in the Department of Physiology and Biochemistry, and Dr. John Kirk, Demonstrator in Anatomy, have been appointed members of the Faculty.

ADMINISTRATION.

Mr. E. B. Hicks, Finance Scretary, was granted leave of absence for part of the Long Vacation and for the First Term, on account of illness. The Assistant Accountant, Miss Alder, carried on the work of the Department with the special part-time assistance of Mr. O. V. Lawley (the Superintendent of Records). The Budget Sub-Committee expressed their satisfaction that, notwithstanding the difficult circumstances, the Annual Accounts were completed by the usual date and in a satisfactory manner.

Mr. H. J. Evans, Senior Lecturer in Chemistry to Medica Students, has been appointed Comptroller, with Mr. A. W. Conisbee and Mr. P. W. Slater as his First and Second Assistants, in the Chemistry Stores.

THE WORK OF THE FACULTIES.

The Report presented by the Provost at the Assembly of Faculties last July deals with the outstanding events of the Session 1927–28. This Report, together with the address delivered on that occasion by the Hon. Sir Charles Parsons, who received the Scholars, Medallists, and Prizemen, is printed in the Calendar for the current Session.

A list of the Original Publications by members of the Staff and Research Students for the year 1927–28 will also be found in the current Calendar (pp. 339–368). It is a sufficient indication of the active research work that is going on.

A list of the Public Lectures arranged since the issue of the last Report is given below. The attendances are recorded on p. 19. The College Committee desire to take this opportunity of expressing their appreciation of the services of the several lecturers in this important public side of the work.

Professor E. Vermeil, of the University of Strasbourg.	"Les Relations intellectuelles entre la France et l'Allemagne."

The following brief summary of matters supplementary to the Provost's Report in the Calendar is given here to make the record of the year as complete as possible:—

FACULTY OF ARTS.

The Bartlett School of Architecture.

The Report of the Professors of the Bartlett School of Architecture is appended hereto (p. 113). The notable successes gained by students of the School in open competition for important prizes is supplemented by more recent achievements that are included in the list of Honours and Appointments (p. 30). The Committee are glad to take another opportunity of congratulating Professor Richardson and those who are associated with him, and of expressing their appreciation of the effective methods that bear such fruitful results. The Atelier for the post-graduate and post-diploma study of Advanced Design has outgrown the special accommodation provided for it in Malet Street, thirty-nine students being at work in the First Term of the current Session; facilities for evening work is provided for some of them in the Bartlett School. Unfortunately, Mr. Jaggard's ill-health prevented him from carrying out his full duties. The news of his death has been received with great regret just as this Report is going to press. The Bartlett School has thereby suffered the loss of an inspiring teacher whose experience has been of great value and whose kindly presence will be missed. Mr. Matthew Dawson has been appointed to give temporary assistance and Mr. F. E. Drury, M.Sc., Principal of the L.C.C. School of Building at Brixton, is giving a course of Special Lectures on "Steel and Reinforced Concrete Construction."

The curricula of the School have been supplemented and strengthened by the institution of a Division of Decoration, in co-operation with the Incorporated Institute of British Decorators. The scheme of work includes a three-year course leading to a Certificate in Decoration. Mr. H. Warren Wilson has been appointed the first Lecturer in Decoration.

There are 163 students enrolled in the Bartlett School for the current Session, of whom 39 are working for the Degree and 47 for the Diploma or Certificate.

The Slade School.

The Slade School continues to have as many students as the available accommodation makes it possible to admit. Many of its former students are maintaining its reputation in the Art world. The Refreshment Room of the National Gallery, Millbank (the Tate Gallery), the decoration of which by Mr. Rex Whistler was referred to in the last Report, was formally opened at an interesting ceremony, with Lord D'Abernon in the Chair. It is a matter of gratification to Mr. Whistler's old School that his decorations were not injured by their submergence in the Thames floods. Mr. W. G. Constable, a former student, has just been appointed Assistant-Director of the National Gallery. Mr. Stephen Bone has been commissioned to decorate part of the new Entrance Hall of the Piccadilly Circus Tube Station, and Mr. Horsbrugh-Porter is assisting him; Miss Alexander is doing the lettering. Considerable benefit has been felt by all members of the School from the establishment of a Store for the sale of artists' material on the premises

under the charge of Miss Lazenby, a former student. A new departure was the co-operation in Drawing Competitions from object and from memory organised by the London Federation of (Working) Boys' Clubs: these were held at the Slade School in January 1929, the subjects being set by Miss Bostock, a former student. The results have been most interesting.

The School of Librarianship.

The Director's Report on the School of Librarianship for the Session 1927–28 will be found on p. 107, and again shows a long list of appointments that have been gained by the students who have completed their qualifications. 126 students have been enrolled for the current Session, of whom 89 are working for the University Diploma. The period during which grants were made by the Carnegie United Kingdom Trust and from General University Funds in aid of the School terminates at the end of the current Session. A committee has been formed to take the necessary steps to place it on a sound financial basis. Lord Balniel is President; The Vice-Chancellor (Sir Gregory Foster), Sir Frederic Kenyon, the President of the Library Association (Dr. A. D. Lindsay, Master of Balliol College), and Mr. G. F. Barwick, Vice-Presidents; Sir Ernest Benn, Bt., Honorary Treasurer; and Mr. C. R. Sanderson, Organising Secretary of this Committee. Since its foundation in October 1919 this, the only University School of Librarianship in the country, has proved that it meets a need that cannot otherwise be supplied, and the success that has attended its work in the first nine years abundantly justifies the belief that it should be continued. This opinion has also been expressed by the Departmental Committee on Public Libraries. After speaking appreciatively of the work of the School in its Report the Committee says:—"We consider it essential therefore that the existing School of Librarianship should be maintained. . . . The University of London has undertaken to maintain it until the end of that period (*i.e.*, July 1929) in the hope that meanwhile a permanent endowment will be founded. It is much to be desired that this hope will be realised." The School of Librarianship Endowment Committee therefore approaches its task with confidence.

Archæology.

Dr. R. E. M. Wheeler, the Hon. Lecturer in British Archæology, is holding two courses this Session, one being primarily arranged for students of the Department of History. He is also engaged in organising an Exhibition of Recent Finds in British Archæology, to be held in the College in February 1929. With a view to the collection of exhibits, an honorary committee of leading British Archæologists has been formed under the presidency of the Earl of Crawford and Balcarres.

Egyptology.

The British School of Archæology in Egypt has continued its work in Southern Palestine at the Mound of Tell Fara, identified by Professor Sir Flinders Petrie with the Beth-Peleth of the Bible, from which David drew his guard of Pelethites. The objects found on this site include some of the finest pieces of metal-work, among them a magnificent silver bowl, ever found in Palestine, of about the time of Shishak, who in the Biblical account raided Jerusalem in the reign of Rehoboam. Some of the results of these excavations were shown at the annual Summer Exhibition at the College. The collection of beads has been further revised. The dating of the material in the Museum is continuing. The amount of work already

done on this adds greatly to the value of the Museum for the purposes of reference and research. A further volume of the catalogue, fully illustrated, is ready for the press. Mr. Engelbach, a former student of the department, is now Director of the Cairo Museum; Mr. Brunton, another former student, is conducting excavations in Egypt for the British Museum, assisted by a present student, Mr. Kirwan. Miss Murray has been invited by the Finnish-British Society to deliver in Finland a course of lectures on Ancient Egypt and on her own excavations in Malta, and has been granted leave of absence during part of the Second Term for the purpose.

English. The work of the Department of English will be strengthened by the appointment of Dr. C. J. Sisson as the Lord Northcliffe Professor and Joint Head of the Department, under the benefaction recorded on p. 22. The appointment of a Lord Northcliffe Lecturer in Literature, who, by the terms of the Trust, shall be "an eminent man of letters" selected by a special committee appointed for the purpose, will also widen and enrich the scope of the work in the department. Dr. Macneile Dixon, Regius Professor of English Language and Literature in the University of Glasgow, has been appointed the first Lord Northcliffe Lecturer, and will deliver the lectures at a date still to be arranged. Professor Sisson has been granted leave of absence from October 1928 to January 1929 to enable him to act as Visiting Professor in English Literature at Harvard University. Mr. Doughty and Miss Batho are carrying on his work in his absence.

Scandinavian Studies. The Department of Scandinavian Studies continues to consolidate its work under the direction of Professor J. G. Robertson, and all the classes offered this Session have been formed. Mr. A. M. Wijk, of the University of Uppsala, has been appointed Crown Princess Louise Lecturer in Swedish, and began his work at the opening of the current Session. There are 42 students in the department as compared with 36 last Session, divided among the subjects as follows: Danish, 14; Norwegian, 13; Swedish, 15. The delivery of Public Lectures continues to form an important part of the work of the lecturers.

German. It has been a matter of regret to Professor Priebsch's friends that, owing to trouble with his lame leg this Session, it has become impossible for the present for him to make the journey to the College. Arrangements have been made for him to meet some of his students at his private house. Professor Robertson, Dr. Perrett, and Mr. Norman have been carrying on the rest of his work. It is hoped that Professor Priebsch will soon be able to resume his share in College life.

Dutch. With a view to placing the Departments of Dutch Studies on the same satisfactory financial basis as has now been secured for Scandinavian Studies, the Dutch Studies Committee, of which His Excellency the Netherland Minister is Honorary President and Mr. F. C. Stoop is Honorary Treasurer, are asking for £10,000. In support of that appeal they have reported on the progress of the scheme since it was initiated in 1919–20, showing that the work, now divided into two departments of Dutch History and Institutions and Dutch Language and Literature, has been steadily developing. Professor Geyl has organised the work of his department so that it takes a

definite place in the scheme of History Studies in the University. Dr. Haantjes, Reader, makes full provision for the teaching of Language and Literature, including Afrikaans. During the current Session 21 students are enrolled for the Dutch History courses, and 15, of whom 4 are registered at Bedford College, for the Language and Literature courses.

With the co-operation of Professor Tancred Borenius, Professor Geyl has been mainly responsible for the arrangement of a course of public lectures at the College in connection with the present Exhibition of Dutch Art at Burlington House. Particulars are given in the list on p. 63.

Phonetics.

The Department of Phonetics continues to act as a valuable auxiliary to the Departments of the Modern Languages. Last Session was notable for the amount of research work carried out by the staff and students, including phonetic analyses of Dutch (Miss Quick), Turkish and Somali (Miss Armstrong), Ibo (Miss Ward), a preliminary investigation into the three languages of Senegal (Miss Coustenoble), and other similar researches. A further account of the Vacation and Evening work of the department will be found on p. 76.

Economics.

The Senate have not yet appointed a successor to Professor H. S. Foxwell in the Chair of Political Economy. Mr. N. F. Hall, Lecturer, is carrying on, with the assistance of Mr. H. T. N. Gaitskell, a scheme of work that was instituted this Session, involving the co-operation of the Department of History in the provision of courses in Economic History and on the British Constitution. The Senate have granted permission for a Special Intermediate examination in Economics to be held at the College in 1929 and in subsequent years. Twenty-seven students are at work in the department, of whom 14 are taking the Intermediate Course.

History.

In the Department of History the plan has been adopted of breaking the general courses, as far as possible, into short periods, each period being allotted to the member of the staff whose particular interests and research work lie in that field, the object being to ensure broader and fresher treatment of the subject, with a corresponding interest for the students.

Philosophy and Psychology.

Philosophy and Psychology, which for many years formed one department with two professors, have been separated into two departments: the Grote Chair of Philosophy of Mind and Logic is now attached to the Department of Philosophy. The new Professor, Mr. John Macmurray, began work at the opening of the Session.

Professor Spearman has been granted the title of Professor of Psychology, and his appointment has been made a full-time one. It is hoped that, when the Department of Hygiene and Public Health at the College is closed in consequence of the establishment of the London School of Hygiene and Tropical Medicine, it will be possible to provide the Department of Psychology with further accommodation that it has so long needed. A committee has been appointed to consider and report on this matter.

Geography.

Professor C. B. Fawcett, the new Head of the Department, has effected many changes and additions in the equipment and accommodation of the department. A Geography Departmental Store

has been instituted and better facilities for map-work have been provided. The programme of work for the Day Course, which is now in full operation, has been drawn up in co-operation with the departments of Anthropology, Botany, Zoology, and Surveying.

Special Lectures.

A special course of lectures for students of all departments of the Faculty on "The Background of some Great Literatures" has been arranged on Mondays at 2 P.M. during the Second Term of the current Session. The programme covers a wide field of literary and historical interest. The following are co-operating in this course :—Professor E. A. Gardner, Mr. Norman H. Baynes, Professor H. E. Butler, Professor Edmund Gardner, Miss M. St. Clair Byrne, Mr. J. W. Jeaffreson, Professor J. G. Robertson, and Professor A. W. Reed, of King's College.

FACULTY OF LAWS.

The Faculty of Laws has now been provided with better accommodation in Crabb Robinson Hall, and the Law Library has been housed there, facilittes being given to students to read until 9.30 P.M. during the week. By the appointment of Mr. E. R. Guest and Mr. A. S. Gilbert as Assistants for Tutorial Work, this side of the teaching has been developed. The special teaching in Latin for students of the Faculty has also been increased, Mr. Guest undertaking this work.

It was a matter of regret that during the First Term of the current Session the Dean, Professor de Montmorency, and Mr. Gilbert Hurst, Reader in English Law, fell ill and were obliged to seek leave of absence. Both have now resumed their duties.

Mr. S. G. Vesey FitzGerald has undertaken the teaching of Muhammadan Public Law and Turkish Land Law during the absence of Judge W. H. Hill as British Member of the Anglo-Turkish Arbitral Tribunal at Constantinople.

FACULTY OF SCIENCE.

In response to an application from the College, the Senate have granted permission for certain Alternative Papers to be set at the B.Sc. (Special) examination in Chemistry, Physics and Physiology, under a scheme approved for the two years 1929 and 1930. Thus a step forward has been taken towards the co-operation of teaching and examining work.

Applied Mathematics.

Reference was made last year to the institution of a University Observatory at Hendon to house the 24-inch Wilson Telescope that has been presented to the University. A site opposite Mill Hill Park on the new by-pass road to Watford has been accepted from the Hendon Urban District Council, and the building of the Observatory, to the plans of Mr. L. Rome Guthrie, is progressing. Professor Filon has been appointed Director for the period of five years, during which the College has undertaken the administration of the Observatory, and Mr. C. C. L. Gregory, "Wilson Observer." Such an Observatory will afford opportunity for the fuller development of astronomical studies in the University.

Physiology and Biochemistry.

There were 33 research students registered for the Department of Physiology and Biochemistry during the Session 1927–28; 25 have so far registered this Session. These figures, together with the long list of Original Papers issued from the department which will be found on pages 363 to 366 of the current Calendar, are sufficient indication of the active research work that is being carried on. General Physiology is now included among the list of subjects for the Intermediate examination of Science for Internal students. A committee has been appointed to raise a suitable memorial to Professors Bayliss and Starling.

Zoology.

Leave of absence to Dr. T. A. Stephenson during the current session, and to Dr. Elizabeth Fraser for the Second and Third Terms, has been granted to enable them to join the Zoological Expedition to the Great Barrier Reef of Australia. Arrangements have been made for the carrying on of their work by members of the department, with a certain amount of special assistance. The provision of a new building for the department, where effect can be given to the wider development of the subject in all its branches, is one of the urgent needs of the moment. (See p. 22.)

Chemical Engineering.

The Ramsay Laboratory of Chemical Engineering has continued, under Professor W. E. Gibbs, to carry out a long list of investigations. There were ten students in the department last Session, of whom three left to take up Industrial appointments. Two theses were submitted for the degrees of Ph.D. and M.Sc. respectively. There are the same number (10) at work this Session.

FACULTY OF ENGINEERING

The Faculty is feeling the benefit of the increased laboratory accommodation resulting from the work carried out in the Long Vacation. Municipal Engineering, which has been hampered by lack of such accommodation, will now be able to extend that side of its work, and a committee has been appointed to consider and report on the provision of equipment for the purpose.

The development of Electrical Engineering in two directions, broadly known as "Power" and "Electro-Communications," is recognized in the scheme of work for that department, which is organized in two such divisions, each with its own laboratory. staff, and courses. It has been a matter of regret that Professor Fleming has now felt obliged to sever his active connection with the work as Special Lecturer in Electro-Communications. Dr. Monteagle Barlow has been appointed lecturer in that branch, and Mr. C. W. Bayliss Lecturer in Electrical Machine Design. Five public lectures were delivered last November by Mr. Percy Dunsheath, of the Research Department of Messrs. W. T. Henley's Telegraph Works Company.

The Sub-Department of Heating and Ventilating Engineering has been discontinued, and Diploma work in that subject is not now provided. Mr. Douglas Betts has been appointed to give the lectures in Heating and Ventilation required by the students of the Bartlett School of Architecture.

FACULTY OF MEDICAL SCIENCES.

The title of the department hitherto known as "Anatomy" has now been changed to that of "Anatomy and Embryology." During the absence of Miss Una Fielding at the University of Beirut this Session, Dr. John Kirk is undertaking some of her work, and Miss A. E. Russell has been appointed a part-time Demonstrator.

The endowment of the Department of Pharmacology by the Rockefeller Foundation, referred to in last year's Report, has had most beneficial effects, and has been the means of increasing the scope and activity of the department generally.

The Medical Departments of the College continue to work in close association with University College Hospital: under a recent arrangement the Sub-Dean of Dental Students at the Hospital is invited to attend meetings of the College Faculty, of which other representatives of the Hospital and Medical School are already members.

The Department of Hygiene and Public Health continues to maintain its position as the chief training centre at present for students preparing for the Diploma in Public Health. It is a matter of regret to the College that this pioneer department is to be removed from it, and that, as a consequence, Dr. Delafield and Mr. Marchant will be transferred to the London School of Hygiene and Tropical Medicine. With the opening of that School next Session, the department at the College will cease to exist, but arrangements will be made for the work in Hygiene required by students of the Department of Municipal Engineering and the Bartlett School of Architecture.

RELATIONS WITH THE LONDON TRAINING COLLEGES.

At the request of the President of the Board of Education, the University has decided to enter into relationship with the 22 Training Colleges in the London area, and a Training Colleges Delegacy has been set up to work out and administer the details.

In place of a mere examination scheme, which was at first suggested, provision has been made for linking the Training Colleges in groups to one or other of the Colleges of the University.

The four Men's Training Colleges (Borough Road, St. Mary's, St. Mark's, and St. John's, Westminster) are to be associated with University College in an effort to strengthen and improve the training of teachers.

THE LIBRARY.

In the Report of the Library Committee for the Session 1926–27 reference was made to the receipt from the University Grants Committee of a sum of £10,000 to be expended upon certain structural alterations to the General Library and the completion of the Science Library. The work to be undertaken in this connection was unavoidably postponed, but the task of removing from the General Library the large number of books which it normally contains was successfully carried out at the conclusion of the Third Term, in order

that the room might be handed over to the contractors at the earliest possible moment during the Long Vacation. The work was completed and the books returned by Christmas 1928. The result is a General Library as safe against the dangers of fire as modern methods of building can ensure, completely redecorated, and fitted with bookshelves of uniform length in oak, and a redecorated Science Library in which accommodation for a much larger number of books has been provided by the completion of the scheme of shelving.

The Committee reports with satisfaction the conclusion of an agreement with the London Mathematical Society (subject to ratification at a General Meeting), as a result of which that Society's valuable collection of mathematical books and periodicals will be placed in the College Science Library as soon as possible. The agreement provides, under certain conditions, for reciprocal privileges of borrowing and use of books as between members of the College and of the Society. The combination of the mathematical literature already in the College, notably in the Graves Library, with the resources of the London Mathematical Society, will produce a mathematical library of first-class importance.

The Folk-Lore Society's Library, which is already housed with that of the College under the terms of a similar agreement, has received a grant of £600 from the Carnegie United Kingdom Trust to be expended upon books and periodicals.

Steady progress has been made during the Session with the work of cataloguing the Sir John Rotton collection. The Hume collection of Tracts, largely on Political Economy, and the Gollancz Library, have been catalogued. The work of classifying and cataloguing the Schwalbe collection of 14,000 anatomical pamphlets has been completed.

The Bentham MSS. have been rendered less cumbersome and more readily accessible by their enclosure in folders, each of which bears a description of its contents and a note of the number of loose sheets which it contains. The collection of books, pamphlets, prints, etc., illustrating the history of the College has been completely recatalogued and rearranged, and a large number of fresh items has been added to it during the Session.

The number of volumes added to the Library during the Session 1927–28 was 6,772, to which must be added 2,819 pamphlets, making a total of 9,591. The number of volumes and pamphlets contained in the College Library no exceeds 300,000.

The following valuable and interesting gifts were made to the Library during last Session :—

(*a*) Messrs. Chapman and Hall showed their sympathy with the Centenary Appeal by a donation of 56 volumes to the College Library.

(*b*) Messrs. Gyldenhal have continued to send large numbers of volumes of Danish publications to the Scandinavian Section of the Library.

(*c*) Dr. Florence Buchanan presented a collection of 22 volumes and 196 pamphlets on Zoology.

(*d*) Mr. J. A. Currie presented a sum of £25 for the binding and purchase of books illustrating the History of Science, more particularly Chemistry.

(*e*) Mr. W. Collet gave a copy of the London University Examiner, 1833, an early University periodical in manuscript.

Dr. W. Bonser resigned his appointment as Sub-Librarian on January 1st, 1929, to take up the position of Librarian to the University of Birmingham. Miss H. Clark, Assistant Librarian, and Mr. H. J. White, Library Assistant, also resigned, having obtained positions in the Libraries of the Institute of Hygiene and the Royal Society of Medicine respectively. Miss N. Beale, B.A., formerly Assistant Librarian, has been appointed Sub-Librarian. Mr. O. W. Pendleton, M.A., and Mr. A. E. Tooth, M.A., have joined the Library staff.

EVENING AND VACATION COURSES, AND MEETINGS OF OUTSIDE SOCIETIES.

The evening activities of the College are steadily increasing, so that the buildings are now open on five evenings of the week for the purpose of special work, mainly of a post-graduate character.

In the *Evening and Post-graduate School of History* the number of students enrolled for the current Session is 133. The work of the School is highly valued by school teachers and specialists in History. It is carried on in close co-operation with the Institute of Historical Research, of which Professor Pollard is now Director. Mr. Norman Baynes is Director of the Evening School.

The number working in the *Evening School of Geography* this Session is 95.

The *Evening School of Phonetics and Spoken Language* attracts large numbers of teachers of Modern Languages, and its influence on methods of language teaching continues to spread. There are 157 Students registered for the current Session. The Summer Vacation Course in Spoken English was attended by 223 Students, representing 29 nationalities. A Short Course in French Phonetics for Teachers was, by arrangement with the Board of Education, also held in the Long Vacation.

The meetings of the Philological Society, the Geologists' Association, the Jewish Historical Society, the Ancient Egypt Circle, the Folk-Lore Society, and the University of London Law Society are held regularly in the College.

In addition to these, other Societies, including the Classical Journals Board, the British Mycological and Ecological Societies, the Society of Glass Technology, the British Society of Franciscan Studies, and the British Institute of Philosophical Studies, have met from time to time.

The following have also held meetings at the College:—The League of Nations Union, the Association of Scientific Workers,

the Association of University Women Teachers, the Council of the Central Library for Students, the Joint Standing Committee on Library Co-operation, the Friends of the Hebrew University of Jerusalem, the Society for Jewish Jurisprudence, the Modern Humanities Research Association, the School Nature Study Union, the Biochemical Society, the Society of Experimental Biology, and the Social and Political Education League.

The Triennial Education Conference of the League of the Empire, opened by H.R.H. Prince Arthur of Connaught, was held at the College in July 1928, and the Seventeenth Annual Conference of Educational Associations in January 1929. The University of London Historical Society, the London Schools and Colleges Dining Club, and the Thirty Club have dined in the College Refectory.

Six University Tutorial Classes are meeting at the College this Session.

Accommodation is being provided on two evenings a week for the Artists' Rifle Corps for bayonet, sabre, and foil fencing during the rebuilding of their own premises.

SPECIAL EVENTS.

On 21st March, 1928, a Complimentary Dinner to members of the Chemical Engineering Committee, the first Ramsay Professor of Chemical Engineering (Mr. E. C. Williams) and the Ramsay Professor-Elect (Dr. W. E. Gibbs) was held, the Chairman of the College Committee (Viscount Chelmsford) acting as host.

On 30th April the Annual Fellows' Dinner was held, Sir Sidney F. Harmer presiding. The Honorary Fellows and the newly-elected Fellows were the special guests.

On 15th and 16th May the Physiological Laboratory and Lecture Theatre were placed at the disposal of the Royal College of Physicians in connection with the celebration of the Tercentenary of the publication of William Harvey's *De Motu Cordis*. The demonstrations included the showing of a film, the design of which was mainly due to Sir Thomas Lewis, illustrating Harvey's experiments, which created considerable interest and which has since been presented by the Royal College of Physicians to the College. A copy of the first edition of *De Motu Cordis* and the portrait of William Harvey, attributed to Mirevelt, were lent by the College on the occasion of these celebrations.

On 22nd May the Burge Memorial Lecture, which is arranged by the Memorial Trustees to commemorate the work for international friendship of the late Right Reverend Hubert Murray Burge, Bishop of Oxford, was delivered in the Great Hall of the College by Viscount Cecil of Chelwood on the subject of "International Arbitration." The Master of Balliol presided.

On 28th June the fifth Annual Dinner of the Ramsay Memorial Fellowship Trustees and of the Ramsay Memorial Fellows was held, the Provost (Sir Gregory Foster) acting as host.

On 15th July, on the occasion of the Annual Assembly of Faculties, when the Hon. Sir Charles A. Parsons was Visitor and received the Scholars, Medalists, and Prizemen, the Vice-Chairman of the College Committee, Sir John Bradford, admitted the first Honorary Fellows of the College, namely:—H.R.H. Prince Arthur of Connaught, Viscount Chelmsford (*in absentia*), Lord Meston, Sir Andrew Taylor, Professor Norman Collie (*in absentia*), and Professor Ernest Gardner. The nine new Fellows were also admitted. H.R.H. Prince Arthur of Connaught dedicated the new table, lectern, chair, and casket to the uses of the Great Hall, and placed within the casket the book, 'The Builders of the Great Hall,' containing 4,252 names of subscribers, to which reference is made on p. 22.

On 12th and 13th October, in connection with the Centenary Celebrations of University College Hospital Medical School, demonstrations were arranged in the Departments of Anatomy, Physiology, and Pharmacology, and the Harvey film was shown.

On 27th November the Annual Charter Day Dinner was held.

On 15th January, 1929, the first Walter Seton Memorial Lecture was delivered. An account of the occasion is given on page 28.

STUDENTS' ACTIVITIES.

The Union Society and the Women's Union Society again record a year of activity and progress. The Inter-Union Standing Committee continues to be a valuable co-ordinating link between the two Societies. The Foundation week programme of 1928 included an Oration by Mr. John Drinkwater on "The Other Point of View"; performances by the Dramatic Society of Bernard Shaw's "Pygmalion," successfully produced by Mr. E. G. Emery; a Concert with a long programme representing the art of many European countries; a Debate, a Dinner, and a Dance.

The athletic activities of the Union Society have been maintained, and College men have continued to take their share in University athletics. Five are playing in the University Rugby Football and Hockey teams, one in the Association Football team, and six are members of the University Boxing Club. The highest number of points at the Annual University Sports was scored by the College, the Rosebery Cup being secured. At the College Sports in May last the Majority Challenge Cup was won by Science, for the second successive time, with a score of 92 points. Revans again won the Quain Challenge Cup, making the following records:—Long Jump, 21 feet 4½ inches; High Jump, 5 feet 7 inches.

The College and Hospital Fencing Club presents a remarkable record. It secured victories over the Royal Horse Guards, the Royal Military College, Sandhurst, the Royal Engineers, and the Masks. At the recent third Annual United Hospitals Competition the Inter-Hospital Fencing Trophy went to the College after an exciting contest. C. P. Collins, Vice-President of the Club, won both foil and epée championships on that occasion, being undefeated with the

former weapon and losing one assault only with the latter. He also won the Amateur Fencing Association Annual Epée Competition.

The Women's Athletic Union has also flourished. The Badminton Club won nine out of twelve matches played last season, and the Hockey First Eleven ten out of fifteen. The Lacrosse and Netball Clubs carried off the Intercollegiate Cups. The Rowing Club entered for the Senior and Junior Fours and the Summer Eights.

Near the beginning of the current Session, Lord Loch met the members of both Union Societies and put it to them that the time had now arrived for a determined effort to clear off the debt of nearly £6,000 (see p. 23) which still remains on the Athletic Grounds at Perivale, being divided almost equally between the Men's and Women's Grounds. His suggestion met with a ready response, and there has been keen friendly rivalry between the Faculties in the matter of collecting-boxes. At the end of the First Term a Fair was organised. The result is not yet fully known, but it is estimated that a sum of between £400 and £450 will be added to the Fund. Parents and guardians are being asked to help the students in their efforts. Lady Durning Lawrence, who has ever shown her practical interest in the welfare of the students, has given £500 towards clearing off the debt on the Women's Ground.

The College Committee has considered very carefully the scheme submitted by the Senate for the reconstitution of the University Union Society, and has expressed its readiness to co-operate in it.

A valuable innovation in College life has been made through the Inter-Union Standing Committee by the institution last Session of lunch-hour concerts in the Great Hall. Members of the staff and students have been quick to show their appreciation of them. The following is the list of artistes, given in the chronological order of their recitals, who have so far assisted in the scheme:—Mr. Rae Robertson (pianoforte), Miss Bessie Rawlins (violin), the Backhouse String Quartet, Miss Stella Murray (contralto), Mr. Gale Gardner (tenor) with Miss Norman Parker at the piano, Mr. John Goss (tenor) with Miss Kathleen Markwell at the piano, Mr. Reginald Paul (pianoforte), Miss Campbell Fisher (songs to the harp), and Madame Alma Haas (pianoforte). The College is greatly indebted to these artistes for the pleasure they have afforded.

A Music Association has recently been formed with the object of stimulating interest in Music, of organising the musical talent in its various expressions (such as orchestral, choral, operatic, or chamber music), and generally of cultivating the musical taste of the members of the College and Medical School. Good results may be expected from its activities.

The Dramatic Society has maintained the reputation that it has made for itself in recent years. In addition to the Foundation Play, three performances of Galsworthy's "The Skin Game" were given with great success last November, the producer being Miss Jean Reekie. In January 1929 the fifth annual presentation of "The Little Plays of St. Francis" by Mr. Laurence Housman was given.

There were eight performances given in two series, which included two plays not yet published and two performed for the first time. Mr. A. S. Gilbert was again the producer. The quiet and sympathetic attention with which the plays were followed was the best tribute to the beauty of the production. The proceeds will, as in former years, be divided between the British Society of Franciscan Studies and Charities, including the St. Christopher's Working Boys' Club. This week of Franciscan Plays has grown to be an annual event that is eagerly awaited, not only by members of the College community, but by many outside supporters, the number of which is growing from year to year. So long as the performances are continued at the College, they will be closely associated with the memory of Dr. Walter Seton, to whose enthusiasm their production by the Dramatic Society was first due.

Lack of space prohibits a detailed record of the various College Societies that are at work. The following have sent in reports showing considerable activity:—The Ancient History Circle, the College and Hospital Anthropological Society, the Botanical Society, the Chemical and Physical Society, the Classical Society, the Critical Society, the Economics Society, the Ethical Union, the French Society, the Geographical Society, the German Society, the Historical Society, the International Society, the Librarianship Students' Association, the Mathematical and Physical Society, the Philosophical Society, the Scout Club, and the Zoological Society. All these give evidence that they are playing a useful part in promoting the corporate life of the various sections of student interests.

The Faculty Societies continue to do good work for their respective Faculties and have been active in the organisation of social events for their members.

The College Branches of the Student Christian Movement, the London Inter-Faculty Christian Union, and the University of London Catholic Society have arranged regular meetings and services; the two former have also formed Study Circles.

The Old Students' Association and the Guild of Graduates are carrying on their important work of keeping past and present students in touch with one another and with College and University movements. In addition to the Dinner and Dance that are arranged annually by the Old Students' Association, an interesting and pleasant evening was spent last Session by the members and their friends at the London Museum, when the President of the Association (Dr. R. E. Mortimer Wheeler, Keeper of the London Museum) and Mrs. Wheeler received them. The Guild of Graduates arranged the usual complimentary dinner to new graduates on the eve of Presentation Day, the Master of the Guild (Colonel H. J. Harris) presiding.

The St. Christopher's Club for Working Boys in the neighbourhood of the College continues to provide a practical outlet for social work on the part of the Students, many of whom help with the Scout and Cub organisations or with other branches of the Club's work. There were Summer Camps for (i.) the Cadets and (ii.) the Scouts and Cubs, and a day's outing for the other boys of the Club.

A College Branch of Toc H. has been formed and will make St. Christopher's Club its main social activity.

THE HALLS OF RESIDENCE.

The Report of the Council of College Hall for 1927–28 records with greatest regret the resignation of Sir Gregory Foster from the office of Chairman, which he had held for twenty-one years. During that period he had shown personal practical interest in all the affairs of the Hall, and had given wise counsel that had been of inestimable value. Prof. H. E. Butler has succeeded him as Chairman. Miss M. Brodrick has continued her generous interest in the welfare of the residents, making gifts that have added to the social amenities of the Hall.

The comfort of University College Hall has been increased by the installation of gas-stoves in all rooms that lack a fireplace. The Seton Room for quiet reading and study, provided by the Walter Seton Memorial Committee, is greatly appreciated.

Both Halls and their Annexes have been full during the year. Some members of the Staff and Students have availed themselves of the opportunity of University collegiate residence in close proximity to the College provided at the Connaught Hall of Residence, which was the gift of H.R.H. the Duke of Connaught to the University, being specially intended for the benefit of men from Canada and the other Dominions.

THE OLD FORGE COTTAGE, CHIDDINGLY.

(WINIFRED SMITH MEMORIAL.)

The Committee of Management of the Old Forge Cottage, Chiddingly, Sussex (Winifred Smith Memorial), which is held in trust for the benefit of the Women Students and the Women Members of the Staffs of the College and of College Hall, London, report that during the year 1928 fifty-five visitors stayed at the Cottage, some for week-ends, others for longer periods. A memorial tablet, designed by Mr. Alexander, has been placed in the lounge.

A small Maintenance Fund has been inaugurated, and includes a donation of £25 from Miss M. Brodrick. By means of the income of this Fund, together with a grant of £10 from the Crabb Robinson Fund, it has been possible to make some reduction in the scale of charges; it is hoped that, as the Fund increases, further reductions may be made.

Miss Edith Goodyear is Chairman of the Committee of Management, and Sir Gregory Foster Hon. Treasurer. Dr. Violet Anderson, who worked with such enthusiasm for the Winifred Smith Memorial from its inception, was obliged to relinquish her appointment as Hon. Secretary, to take up an appointment at University College, Cardiff. Miss H. Winifred Husbands has succeeded her.

THE CRABB ROBINSON FUND.

During the financial year 1927–28, the following grants were made from the Income of the Crabb Robinson Fund :—

Towards the Racquet Court, £50. *The Union Society*—towards upkeep of the Athletic Ground, £75 ; Repolishing floor of the East Fives Court, £12 10*s*. *The Women's Union Society*—towards the Athletic Ground and Furniture, £50 ; for Rooms in College, £10. *University College Hall*—towards the Library, £5. *Winifred Smith Memorial Cottage Maintenance Fund*, £10.

The following grants have already been made during the current year, being chargeable against the income of 1928–29 :—

Towards the Racquet Court, £50. *The Union Society*—towards upkeep of the Athletic Ground, £75 ; cleaning of the Racquet Court, £6 10*s*. *The Women's Union Society*—towards the Athletic Ground, £50. *University College Hall*—towards the Library, £10. *College Hall*—towards the Library, £5. *Winifred Smith Memorial Cottage Maintenance Fund*, £10.

THE PEEL FUND.

The income of the Peel Fund was expended in grants for the purchase of books, etc., made to the following Institutions :—

The Prince of Wales Sea Training Hostel, Limehouse, £5 ; the Harrietsham Working Men's Club, Maidstone, £5 ; the Mechanics' Institute, Alnwick, £10 ; the "Ceiriog" Memorial Institute, Chirk, £10.

UNIVERSITY OF LONDON, UNIVERSITY COLLEGE.

SCHOOL OF LIBRARIANSHIP.

DIRECTOR'S REPORT.

SESSION 1927–28.

During the Ninth Session of the School of Librarianship the number of Students was as follows:—

Full-Time.		*Part-Time.*	
Men	21 (10)*	Men	25 (7)
Women	56 (34)	Women	27 (13)
	77 (44)		52 (20)
Total	129 (64)		

* The figures in round brackets mean First Entries.

The corresponding figures for 1926–27 were 70 (44), 56 (34), and 126 (78). This is the largest aggregate number of Students in the School in any one year, the progressive increase in the last two years being mainly due to the larger influx of actual workers in libraries, stimulated by the London County Council's grant of 25 Free Places to approved candidates employed in libraries in the metropolis. Of the First-year Students, 42 were registered for the full Diploma Course; of the Second-year Students, 36 were so registered.

The results of the Diploma Examination were as follows:—

Part I.				Part II. and whole examination.			
No. of Cand.	Passed.	Failed.	Ref. in 1 subj.	No. of Cand.	Passed.	Failed.	Ref. in 1 subj.
32	22	7	3	41	27	7	7

Thirty other Students were awarded fifty-six Sessional Certificates in separate subjects.

The Sir John MacAlister Medal was won by Mr. E. E. Smart, Miss Elsie Cockerlyne, M.A.(Leeds), being *proxime accessit*, a special prize being awarded to her by the Staff of the School of Librarianship. The Director's Prize for the best work in Book-Selection was awarded to Mr. D. W. King. The Entrance Exhibition for the Session 1928–29 was awarded to Miss Mary M. E. Hammond, M.A.(Cantab.), and Free Places in the School were granted to Miss Mary G. Campbell and Miss Catarina Pautriero.

This has been a year of steady progress, the number of Students necessitating some duplication of classes. Extra courses were given by Mr. Sayers and Mr. Headicar, and the School is indebted to Major Davenport, Mr. P. B. James, Mr. Douie, Mr. Jenkinson,

Mr. Newcombe, Mr. Charles Nowell, and Dr. Mansbridge for public lectures on books, libraries, and allied subjects. These were all well attended. Centenary Lectures were given by the Director on Rossetti and Meredith. Mr. A. I. Ellis, who succeeded Mr. Barwick as University Examiner in Literary History and Book-Selection, was generous in watching and advising the Students engaged in the practical branch of that subject, in the course of which valuable bibliographies were compiled by Miss Margaret McGill, Mr. D. W. King, Mr. A. Yaari, Miss Paul de Lépervanche, and others, several of which will be published.

The list of publications during the Session 1927–28 will be found on pp. 351 and 352 of the current College Calendar.

Additions to the library of professional literature attached to the School have been as follows:—

Purchased ..	112 Volumes.	11 Pamphlets.
Presented ..	11 „	7 „
Library Assn...	13 Volumes.	699 Pamphlets.
Total ..	136 Volumes.	717 Pamphlets.

The close of the Session was saddened by the death of a very promising Student, Mr. A. E. Evans, B.A., who was drowned in the Thames in helping to save his mother on July 27th.

Since the grants from the Carnegie United Kingdom Trustees and the University under which the School is maintained come to an end in May 1929, an appeal has been launched for an Endowment Fund, and a special Appeal Committee appointed. As the recent Report of the Public Libraries Committee bears witness, the School is performing a necessary function in the library service of this country, and has thoroughly justified its existence. The question how it shall carry on its work in the future is an urgent and anxious one, and asks for the sympathy and earnest co-operation of all who are interested in libraries and education.

Appended is a report on the Annual Vacation School, which was held this year at the University of Rome.

ERNEST A. BAKER,

October 1928. *Director.*

EASTER VACATION SCHOOL AT ROME, 1928.

The ninth Vacation School was held at Easter this year (April 2nd to 13th) at the University of Rome, by the kind permission of the Ministry of Public Instruction. Sixty-nine Students entered for the course (nine of these were compelled through illness and other reasons to withdraw), including 22 past and present Students of the School of Librarianship, and 22 librarians and assistant librarians. The remainder included teachers and other interested persons. The whole party, with the staff, numbered 65.

Courses of lectures were delivered by the following:—The Director, Dr. Baker, on Contemporary English Poetry; Mr. A. K. Esdaile on How to Catalogue Early Printed Books, International Bibliography, and the Bibliography of Periodical Literature; Mr. H. Jenkinson on

Archives, their Preservation and Study; Mr. M. S. Briggs on The Architecture of Rome, Ancient, Mediæval, Renaissance, and Baroque; and by Signor Bagnani on Roman Painting, and Recent Excavations in Italy. Signor Bagnani took the place of Mrs. Eugenie Strong, who was unable to lecture through indisposition. The Students also attended two lectures on Greek Sculpture in Roman Museums, and on the Lighting and Arrangement of Museums, by Mr. Bernard Ashmole, at the British School at Rome. Prior to leaving England, many of the Students attended special lectures by Professor E. G. Gardner on Greek Sculpture in Rome, and Roman Historical Sculpture, and by Professor A. E. Richardson and Mr. H. Corfiato on the Architecturre of Rome.

The party was taken over the Vatican Library by the Librarian, Monsignor Tisserand, and saw the work of cataloguing this great Library now being carried on by Dr. Bishop, Mr. Hansen, and M. Martel. A visit was also paid to the Vatican Archives, under the guidance of Cardinal Gasquet; and Signorina Casella, the chief librarian, took the party over the Biblioteca Vittorio Emanuele, which is the central Public Library of Rome.

The party were entertained to lunch by the Ministry of Public Instruction, and were received at the Campidoglio by the Vice-Governor.

There were excursions to Ostia, Frascati, Hadrian's Villa, Tivoli, and other places. At Tivoli, Mr. and Mrs. G. H. Hallam entertained the party to tea at Horace's Villa. Mr. Briggs was very helpful in conducting the party over the Baths of Caracalla, the Forum, etc.

Besides those above-named, the School is greatly indebted to the Italian Embassy in London, to the British Embassy at Rome, to Dr. Vincenzo Fago, of the Ministry of Public Instruction, to Mr. J. G. Hodgson, Librarian of the Institut Internationale d'Agriculture, to Count Cippico, to the University Fascisti Club, and to the National Union of Students, for the invaluable assistance they gave in the preliminary organising, in finding accommodation for the staff and students in Rome, and in entertaining the party. The staff were accommodated at the Hotel Metropole, and the students in two neighbouring hotels, and found all the arrangements excellent.

Town-Planning Department	20	3	‡23

‡ (This number includes 5 Diploma, Degree, and Special Students already counted in Full-time Day returns and in Atelier returns, and also 2 Students from the Engineering Department.)

Included in the total of Full-time Day Students are 31 (24 men and 7 women) who are taking the Five-Year Course for the B.A. Degree in Architecture; of these, 9 (7 men and 2 women) hold Entrance Exhibitions.

Further notable successes have been achieved during the Session: six students were admitted to the final competition for the Rome Scholarship, and one of these, Mr. L. W. White, was awarded the R.I.B.A. Henry Jarvis Rome Studentship of the value of £250 per annum for two years.

The R.I.B.A. Soane Medallion (and £150) was also gained by Mr. L. W. White, Honourable Mention in the same Competition being given to Mr. J. T. Lloyd.

A Commonwealth Fund Fellowship (value £600 for two years and tenable at the University of Columbia, U.S.A.) has been awarded to Mr. A. C. Light.

The prize (value £25) offered by the Proprietors of Concrete Publications Ltd. was awarded to Mr. S. G. Chaplin, after keen competition.

Mr. Arthur Stratton, Reader and Tutor, has continued his valuable services, and has supervised the individual work of the students. Mr. Hector O. Corfiato, Senior Lecturer, has been responsible for design work, under my supervision, both in the School and in the Atelier. My thanks are also due to the following Architects:—Messrs. Arthur Davis, H. V. Lanchester, Charles Lovett Gill, and Professor S. D. Adshead for serving on the Triennial Jury in connection with the work of the Atelier. The Evening School has progressed, thanks to Mr. W. R. Jaggard, Lecturer in Construction, and to Mr. Sidney Hyde, who has continued the supervision of a certain section of the work. The number of Evening School Students has again increased, there having been a total attendance of 44 students this Session as against 39 last Session. I am also indebted to Mr. Corfiato for his extra attendances to supervise the Design section of the Evening School. The services of the Instructor in Decorative Design, Mr. Warren Wilson, who has supervised the drawing and original designing by students of all years in connection with the decorative side of Architecture, have resulted in further improvement. The special course of study arranged at the British Museum and the Victoria and Albert Museum relating to the more technical branches of Design has been augmented. Mr. Alabaster has continued to assist in the Studio, supervising, in particular, the work of the First- and Second-Year Students, while additional help has been afforded us by Mr. Stanley, who joined the Staff of the School at the beginning of the Session. A series of five lectures on "The London Building Acts as affecting the Practising Architect" was giving during the first term by Professor R. Elsey Smith, and was well attended, 36 students being registered for this course.

I wish to express my thanks to Professor Adshead for his co-operation and for the training in Town Planning that he has given to my students.

Mr. Stratton has given several Public Lectures this Session, and has also carried through a most successful lecturing tour in Holland. I have given Public Lectures on various subjects to the London Society and the Architecture Club, and have taken part in Debates at the R.I.B.A.

Thanks to the co-operation of Professor Tonks, advanced students have been permitted to continue their studies from Life in the Slade School and, as a reciprocal measure, many Slade students have attended courses of lectures on the History of Architecture given by Mr. Stratton and myself: some of the Slade students have taken Architecture as a subsidiary subject for the University Diploma of Fine Art. The scope of these inter-departmental lectures is increasing.

In collaboration with Professor Coker, Third- and Fourth-Year Students have received instruction in Reinforced Concrete and Steel Work from Mr. Sprague and Mr. Collins, of the Department of Civil and Mechanical Engineering, and facilities for training in these methods of construction are being extended. With the co-operation of Professor Ormsby, Mr. C. A. Hart, of the Department of Municipal Engineering, has given instruction in Surveying and Levelling.

With regard to publications, Mr. Stratton has brought out a fifth edition of "Architecture of the Renaissance in Italy," and also a

Hand-book on "English Mediæval Architecture," accompanying diagrams to be used in connection with the teaching of History in Secondary and Public Schools. I have made contributions to the Press and have two books in preparation; Mr. Corfiato has contributed several articles to various journals, etc.

An important feature of the Department has been the continuous exhibition of students' work and the entry of advanced students for the R.I.B.A. Competitions and the Prizes offered by the Royal Society of Arts. Through the kindness of Lady Walston, a Prize of £5 for two Sessions is to be awarded for the best design in Roadside Furnishing.

The negotiations with the Incorporated Institute of British Decorators have resulted in the institution of a Lectureship in Decoration, which has long been needed, and I hope beneficial results will be obtained. Mr. H. Warren Wilson has been appointed Lecturer in Decoration, and the scheme will be put into operation as from the beginning of the Session 1928–29.

(Signed) A. E. RICHARDSON,

18*th June*, 1928. *Professor.*

DEPARTMENT OF TOWN PLANNING.

I have to report that the number of students now working in the Town-Planning Department is 23. Of these, 4 are taking Town Planning in connection with the Diploma Course in Architecture, 3 the Course for the Town-Planning Diploma of the University, and 16 the Certificate Course, 6 of whom are in their Second Year.

In connection with the Studio work, the Hon. R. Stafford Cripps, K.C., has offered a small prize for a development scheme. The problem has been set by Mr. Frank Hunt (the Valuer for the London County Council), and is for the reconstruction of an area between Hill Street, Peckham, and High Street, Peckham. Mr. Hunt has promised to visit the School and inspect the result.

Last Session Mr. Cripps was good enough to offer a prize for laying out a new County Council Estate at Morden, and this was awarded to Mr. Avery.

As a result of the work done during last Session, 5 students obtained the Certificate in Town Planning and 3 the Diploma.

There appears to be an increasing demand for men capable of undertaking town planning and an insufficient number of men who are able to undertake the work.

I wish to take this opportunity of expressing my appreciation of the voluntary services rendered by Mr. G. L. Pepler, of the Ministry of Health, who in the past has acted as External Examiner in the Certificate Course.

(Signed) S. D. ADSHEAD,

6*th June*, 1928. *Professor of Town Planning.*

FORM OF LEGACY

I GIVE to the UNIVERSITY OF LONDON for the benefit of UNIVERSITY COLLEGE the sum of £ duty free,

(*a*) for the general purposes of the College.

or (*b*) the capital to be invested and the income to be applied for the general purposes of the College.

or (*c*) for the following purpose, namely:

or (*d*) the capital to be invested and the income to be applied for the following purpose, namely:

N.B. Strike out the lettering and three of these four alternatives. If (*c*) or (*d*) is left, state the purpose desired.

I declare that the receipt of the Treasurer or other proper officer for the time being of the College shall effectually discharge my executors.
